

REQUIREMENTS DOCUMENT

Finance & Accounting Module

Nawjan Institute of Nursing — Chart of Accounts

Prepared by	Flint De Orient Marketing & Technology Pvt. Ltd.
Prepared for	Nawjan Institute of Nursing, Belegghata, Kolkata
Document type	Requirements interpretation — for client confirmation
Source	Handwritten brief shared by Nawjan management, 02 May 2026
Status	Draft v1 — awaiting client sign-off on open questions (Section 6)
Maps to	NIMS Module 04 — Finance & Accounting

1. Purpose of this document

This document captures Flint De Orient's interpretation of the handwritten chart-of-accounts brief shared by Nawjan Institute of Nursing on 02 May 2026. It serves three purposes:

1. Confirmation — to ensure we have read the handwritten notes correctly before any code is written. Where handwriting was ambiguous, items are flagged in Section 6 for the client's clarification.
2. Specification — to translate the chart of accounts into a structured tree that the Finance & Accounting module of NIMS will implement as its master ledger configuration.
3. Single source of truth — once signed off, this document is the binding scope for the Finance module's account-head structure. Any additions or changes after sign-off will follow the standard change-request process noted at the end.

2. Top-level structure as understood

The brief defines the institute's books in two parents — Expense and Income. Expense has three first-level branches; Income has five direct heads.

Side	Branch	Children at this level
Expense	College Expense	9 sub-heads (Salary, Paperwork, Transport, Advertisement, Consultancy, Purchase, Book Account, Development, Miscellaneous)

Side	Branch	Children at this level
Expense	Infrastructure	3 sub-heads (Building, Field/Ground, New Project) — Building further breaks into 10 trade-wise heads
Expense	Hostel Expense	10 sub-heads (Salary, Grocery, Veg, Chicken, Fish, Rice, Gas/Firewood, Tiffin, Cooking Materials, Medicine)
Income	Income	5 direct heads (Admission Fees, Tuition Fees, Hostel Registration Fees, Hostel Monthly Fees, Loan from Other Person)

3. Detailed Expense structure

Each branch below is reproduced exactly as recorded in the handwritten brief. Sub-heads (level 3) are shown wherever the original notes drilled down further. Items not drilled down are listed as a flat list.

3.1 Branch 01 — College Expense

Day-to-day operating expenses related to running the academic side of the institute. Nine sub-heads were recorded:

3.1.1 College Salary

- Teacher Salary
- Management Salary
- Non-Staff Salary

3.1.2 College Paperwork

- Eco Hospital (clinical-posting tie-up — needs confirmation, see §6)
- WBNC & INC (West Bengal Nursing Council & Indian Nursing Council)
- Permission
- Govt Fees
- Nasiruddin Agreement (presumed landowner / lease-holder name — to be confirmed)
- Land Paper

3.1.3 College Transport

- Bus
- Toto (electric three-wheeler)
- Eco / Maruti (institute-owned car maintenance & fuel)

3.1.4 Advertisement

- Online Advertisement
- Offline Advertisement
- Website / Social Media
- Column Poster, etc. (interpreted from “Kolom Porter” — newspaper column ads & hoardings; to be confirmed)

3.1.5 Consultancy

- Per-student ledger entry (each consultancy expense is mapped against the student record it pertains to)

3.1.6 Purchase

Recorded as a head with no sub-classification in the brief. Recommended sub-classification (subject to client approval): Stationery, Lab Consumables, Office Supplies, IT & Equipment.

3.1.7 Book Account

- Anand Books, Kolkata (vendor-named head; “kothao-kothao” suggests other booksellers also accepted — to be confirmed)

3.1.8 Development

Recorded as a head with no sub-classification. Likely covers academic-development, faculty-development, training, workshops. To be defined with the client.

3.1.9 Miscellaneous

- Electric Bill
- Guest Teacher Salary
- Visit Expenses

3.2 Branch 02 — Infrastructure

Capital and capex-style expenses on physical assets. Three sub-heads, with Building further broken into 10 trade-wise heads.

3.2.1 Sub-heads at level 2

1. Building
2. Field / Ground
3. New Project

3.2.2 Building — trade-wise breakdown (10 heads)

1. Civil Work
2. Glass Work
3. Wood Work
4. Electric Work
5. Plumbing Work
6. Marble Work
7. Colour Work (paint & finishing)
8. Construction Work
9. Miscellaneous
10. Purchase of Building Materials

Field/Ground and New Project were not broken down further in the brief and will inherit a default leaf-level structure unless the client specifies otherwise.

3.3 Branch 03 — Hostel Expense

Operating expenses for the residential side of the institute. Ten leaf-level heads recorded:

#	Head	Likely scope (interpretation — to be confirmed)
1	Salary	Hostel warden, cooks, cleaning & support staff
2	Grocery	Dry goods, pulses, oil, spices, cleaning supplies

#	Head	Likely scope (interpretation — to be confirmed)
3	Vegetables	<i>Daily vegetable purchase</i>
4	Chicken	<i>Recorded as a separate head — daily/weekly procurement</i>
5	Fish	<i>Recorded as a separate head — daily/weekly procurement</i>
6	Rice	<i>Recorded as a separate head — bulk procurement</i>
7	Gas / Firewood	<i>Cooking fuel — LPG cylinders and / or firewood</i>
8	Tiffin	<i>Snacks / breakfast / between-meals provisioning</i>
9	Cooking Materials	<i>Utensils, gas-stove maintenance, kitchen consumables</i>
10	Medicine	<i>Hostel first-aid and routine medical supplies</i>

4. Income structure

Five direct income heads were recorded. No further sub-classification was indicated in the brief.

#	Income head	Notes & system handling
1	Admission Fees	One-time at the point of admission. Course-wise rate (GNM, B.Sc Nursing, P.B. B.Sc, M.Sc Nursing). Auto-linked to the admission record in NIMS.
2	Tuition Fees	Recurring — annual or instalment-based depending on the course. Rate-card editable in the Fee Master.
3	Hostel Registration Fees	One-time at the point of hostel allotment. Separate ledger from tuition.
4	Hostel Monthly Fees	Recurring monthly. Auto-generates dues each month for hostellers.
5	Loan from Other Person	Flagged in the brief as a separate income line. Recommendation: classify under Liabilities (loans payable) rather than Income, to keep the P&L clean. To be confirmed with client — see §6.

5. How this maps to the NIMS Finance & Accounting module

The chart of accounts above will be implemented as the master ledger configuration in the Finance & Accounting module. Concretely:

5.1 System mapping

Brief item	System object
Two top-level parents (Expense, Income)	Account groups at level 0
3 expense branches + Income node	Account groups at level 1 (College Expense / Infrastructure / Hostel Expense / Income)
Sub-heads (e.g., Salary, Paperwork, Transport)	Account groups at level 2
Leaf items (e.g., Teacher Salary, Civil Work, Rice)	Ledger accounts — these are the heads that receipts and vouchers actually post against
Per-student consultancy	Consultancy ledger linked by Student ID — drill-down available on student record
Vendor-named heads (Anand Books, Nasiruddin)	Vendor master entries, with default ledger account pre-mapped
Income heads (Admission, Tuition, Hostel)	Pre-mapped to Fee Master fee-types — receipts auto-post against the right head

5.2 Reports the structure will power

- Branch-wise P&L — College vs Infrastructure vs Hostel — at any drill-down level
- Hostel mess cost per student per month (using Hostel Expense / number of hostellers)
- Salary register split across Teacher / Management / Non-Staff / Hostel / Guest
- Trade-wise construction cost report when a building project is under way
- Income heads tracked separately — Admission vs Tuition vs Hostel — with month-on-month trend
- Vendor ledger reports for named vendors (Anand Books, Nasiruddin agreement, etc.)
- Auto-export of all of the above to Tally Prime / Busy via the Tally Bridge

5.3 Approval workflow built around the structure

Every expense entry posted against any of the leaf accounts above can be configured to require principal-level approval before payment. Default thresholds (subject to client's call):

- Below ₹5,000 — Accountant can post & pay directly
- ₹5,000 to ₹25,000 — Principal approval required
- Above ₹25,000 — Principal + management committee approval required

6. Open questions for client confirmation

The handwritten brief was clear on overall structure but a few items need clarification before we lock the chart of accounts. Please review and respond to each:

#	Item	Question
Q1	Eco Hospital	Is this a hospital tie-up vendor (clinical postings)? Should the ledger be a vendor account or a sub-head under Paperwork?
Q2	Nasiruddin Agreement	Confirm full name and nature of the agreement (land lease / partnership / loan). Should this be a vendor ledger or a liability head?
Q3	Kolom Porter	Confirm reading — is this column-poster (newspaper / outdoor) advertising? Or a different vendor?
Q4	Anand Books, kothao-kothao	Should Book Account be a single vendor account (Anand Books only) or a head that also accepts other booksellers?
Q5	Loan from Other Person	Should this sit under Income, or be re-classified as a Liability (loan payable)? The latter is standard accounting practice and keeps your P&L clean.
Q6	Purchase (College Expense)	No sub-heads were given. Should we create Stationery / Lab Consumables / Office Supplies / IT? Or keep it as a single bucket?
Q7	Development	What does this head cover — faculty development, infrastructure development, or something else? Sub-heads to be defined.
Q8	Field / Ground (Infrastructure)	Should this break down further (e.g., Maintenance, New Development, Sports Equipment)?
Q9	New Project (Infrastructure)	Is this a placeholder for a specific upcoming project, or a permanent head for any future capex? Naming convention to be agreed.
Q10	Hostel Salary vs College Salary	Are these intentionally separate, or should hostel-side salaries (warden, cook) roll up into a single Salary register? Recommend keeping separate, but confirming.
Q11	GST handling	For vendor expenses (Building work, Purchase, Book Account etc.) — do we capture CGST/SGST/IGST splits? Required for input-tax-credit reporting.
Q12	Approval thresholds	Confirm or revise the ₹5k / ₹25k thresholds proposed in §5.3.

7. Next steps

1. Client review of this document and written responses to the 12 open questions in §6.

2. Once signed off, Flint De Orient will lock the chart of accounts as the implementation spec for NIMS Module 04 — Finance & Accounting.
3. A demo build will be delivered showing this structure in action: posting receipts and expenses against the correct heads, generating branch-wise P&L, and exporting to Tally.
4. Any additions / changes after sign-off will follow a written change-request process — raised via email, scoped within 48 hours, and either absorbed in the agreed budget or quoted separately depending on the size of the change.
